

PFI4996UV 15/07/20	Enjoy The Beach Lip Balm
Description:	Key ingredients:

"Enjoy The Beach Lip Balm" is a lip care product that was developed to protect women's lips,

especially during summer time. This lip balm provides hydration, smoothness and repair due to Creabase® MSO and photostable emollients while Creasperse® UVA HVO protects the lips from the sun. Creasperse® Real Red highlights your smile with a delicious pinky tint.

Key ingredients:

 Creabase® MSO is a natural wax based on Meadowfoam Seed Oil. It is ideal for W/O emulsions as it deeply smooths, sooths and softens dry and sensitive skins. It also increases the stability of skin care products.

• Creasperse® UVA HVO is a ready-to-use predispersed UV-filter based on Titanium Dioxide and Hydrogenated Vegetable Oil. It provides high water resistance and soft skin feel without tackiness.

• Creasperse® Real Red is a ready-to-use predispersed colourant that provides a rich, intense and long-lasting colour. As it is heat- and photostable, it is ideal for wax-based products such as lipsticks.
