### Ligne des Yeux Deauville La Touques

**Description:**

“Ligne des Yeux Deauville La Touques” is a unique anhydrous eyeliner that is extremely long-lasting. Thanks to Creastar® Primary Deauville La Touques Gold/Pink WL 60, this make up product underlines the glance with a luminous and vibrant blue colour.

**Key ingredients:**

- Thixolastic® Fast Dry WL 8 is a rheology and texture modifier combining three technologies: thixotropy, pseudoplasticity and spherology. It imparts a soft and rich texture and dries fast, leaving a slight sheen finish. It is ideal for colour care applications as it reduces the sedimentation of pigments.
- Creasil® 12 TTH is a film-forming agent with a non-transfer effect, which provides a remarkably long-lasting result.
- Creastar® Primary Deauville La Touques Gold/Pink WL 60 is a beautiful pearlescent pigment that provides intense blue shade with mesmerizing golden reflects. It is ideal for make up products, especially eye-shadows and liners.

Ingredient	Phase	INCI Name	Qty%	Function
Thixolastic® Fast Dry WL 8	A	Isododecane (and) Silica (and) Disteardimonium Hectorite (and) Trimethylsiloxysilicate (and) Ethylene/Propylene Copolymer (and) Alcohol (and) Propylene Carbonate (and) Hydrogenated Rosin	41,80%	Drying agent, Rheology modifier
Dedraflow® 5 Luxe		Hydrogenated Vegetable Oil (and) Hydrogenated Polyisobutene	8,20%	Silicone substitute, Emollient
Creasil® 12 TTH		Trimethylsiloxysilicate (and) Isododecane (and) Alcohol (and) Hydrogenated Rosin	20,00%	Long lasting application, Film former
Creastar® Primary Deauville La Touques Gold/Pink WL60	B	Calcium Aluminum Borosilicate (and) Titanium Dioxide (and) Boron Nitride (and) Bismuth Oxychloride (and) Hydroxypropyltrimonium Maltodextrin Crosspolymer (and) Limnanthes Alba (Meadowfoam) Seed Oil (and) Hydrogenated Vegetable Oil (and) Blue 1 (CI 42090)	30,00%	Pearlescent pigments

**Procedure**

Weigh phase A and put under stirring until homogenization.  
Then, add phase B under stirring.
