Minimalist Massage Honey

Description:

"Minimalist Massage Honey" is an interesting formula designed to be used on the body. Its particular honey-like texture, obtained with Creagel® Crystal 10 ISO 16128 and Creagel® EZ 7, provides excellent sliding properties, without flowing. After massaging, this anhydrous formula can be easily removed by adding water. "Minimalist Honey Massage" leaves the skin smooth and moisturised.

Key ingredients:

- Creagel® Crystal 10 ISO 16128 is an anhydrous gel based on a mixture of synthetic and natural thickened lipids. It is a transparent viscosity modifier and film former. It forms a pseudoplastic film on the skin, which leaves a silky and smooth after feel.
- Nordic Beauty Brassica Finlandia is a natural cold processed oil that concentrates all the benefits of rapeseed. Rich in essential fatty acids, vitamins, lecithin and phytosterols, Brassica Finlandia deeply moisturises, repairs and softens the skin.
- Creagel® EZ 7 is an auto-emulsifier based on polymers and Alphaflow® (*Hydrogenated Polydecene*), especially developed for cold process. It can be used as primary or as co-emulsifier to create milky gel emulsions with a soft skin feel. In massage oils, it allows to remove excess oil by emulsifying the product with water.

Ingredient	Phase	INCI Name	Qty%	Function
Creagel® Crystal 10 ISO 16128	A	Hydrogenated Vegetable Oil (and) Ethylene/Propylene Copolymer	57,60%	Viscosity modifier, Texture modifier
Nordic Beauty Brassica Finlandia		Brassica Napus Seed Oil	30,00%	Moisturising, Emollient
Creagel® EZ 7		Sodium Acrylate/Sodium Acryloyldimethyl Taurate Copolymer (and) Hydrogenated Polydecene (and) Laureth-7	11,20%	Auto-emulsifier, Viscosity modifier
Tocopheryl Linoleate / Oleate		Tocopheryl Linoleate / Oleate	1,00%	Antioxidant
Lemon Fragrance		Fragrance	0,20%	Perfume

Procedure

Weigh phase A and put under stirring until homogenization.

Efficacy testing

2 subjects - on the hand:
Microcirculation increase of 90% after 5 minutes of application
