Lip Balm Smooth Your Fine Lines

Description:

"Lip Balm Smooth Your Fine Lines" is the perfect ally for winter season. It hydrates, repairs and protects the lips from external aggressions. Veggilanol® Gold (Lanolin), combined with waxes and SVHC free emollients, leaves the mucosa soft and smooth, without tackiness.

Key ingredients:

- Lanolin correspond to our product Veggilanol® Gold, which is a mixture of esters and fatty acids derived from wax. It is a filmforming and long-lasting agent. Veggilanol® Gold is ideal for skin care formulations, especially lip products, as it repairs, hydrates and protects mucosa. It leaves a non-sticky, glossy film.
- Creabase® MSO is a natural wax based on Meadowfoam Seed Oil. It is ideal for W/O emulsions as it deeply moisturises, soothes and softens dry and sensitive skins. It also increases the stability of skin care products.
- Dedraflow® 50 ISO 16128 is a SVHC-free silicone substitute based on hydrogenated technology. It is an ultra soft emollient, which provides a luxurious feel and an excellent spreadability to the formulation while improving its photostability.

Ingredient	Phase	INCI Name	Qty%	Function
Dedraflow® 50 ISO 16128	A	Hydrogenated Vegetable Oil (and) Hydrogenated Polyisobutene	31,00%	Emollient, Increases spreadability
Creabase® MSO ISO 16128		Limnanthes Alba (Meadowfoam) Seed Oil (and) Candelilla Cera (and) Hydrogenated Meadowfoam Seed Oil	26,00%	Texturizer, Photostable emollient, Nourishing
Hectone® HVO		Hydrogenated Vegetable Oil (and) Disteardimonium Hectorite (and) Propylene Carbonate	22,00%	Texturizer
Creabase® RBW/HVO/Mica		Oryza Sativa (Rice) Bran Wax (and) Hydrogenated Vegetable Oil (and) Mica	8,00%	Wax, Provides consistency
Veggilanol® Gold		Lanolin	8,00%	Nourishing
Nordic Beauty Avena Finlandia		Avena Sativa (Oat) Kernel Oil	5,00%	Emollient, Soft focus agent

Procedure

Heat up phase A until 90°C under mixing until homogeneous.
Kept under stirring until homogenization.
When the mixture is homogeneous, stop the heating and let cool under stirring.

Efficacy Testing

2 subjects - On the forearm:
- Wrinkles decrease Delta D by 54%
- Wrinkles decrease Delta W by 20%
