## Skin Care

**CREANATURAL CAVIAR SEVRUGA EXTRACT** *BUTYLENE GLYCOL (AND) CAVIAR EXTRACT (ACIPENSER STELLATUS)*

**CREANATURAL SALMON CAVIAR EXTRACT** *BUTYLENE GLYCOL (AND) SALMON EGG EXTRACT (SALMO OVUM)*

**CREANATURAL SEPIA MELANIN** *WATER (AND) MELANIN*

**CREANATURAL LAB** *BUTYROSPERMUM PARKII (SHEA BUTTER) EXTRACT (AND) LIMNANTHES ALBA (MEADOWFOAM) SEED OIL*

**CREANATURAL LAQ** *LIMNANTHES ALBA (MEADOWFOAM) SEED OIL (AND) SQUALANE*

**CREANATURAL VEGETABLE MELANIN** *WATER (AND) MELANIN*

**CREANATURAL VEGETABLE SQUALANE** *SQUALANE*

**CREANATURAL WASABI EXTRACT** *WASABIA JAPONICA ROOT EXTRACT*

**FIFLOW AC** *PERFLUOROHEXANE (AND) PERFLUOROPERHYDROPHENANTHRENE (AND) PERFLUORODECALIN (AND) PERFLUORODIMETHYLCYCLOHEXANE*

Range of natural ingredients based on marine and plant extract as well as various vegetable oils. They fit to the natural ideology and give added value to formulations with stability and skin conditioning benefits. Creanatural Marine range is based on caviar extracts and melanin from squid's ink. They bring elegance to cosmetic products as well as suit the more conventional SPA products.

Range of natural ingredients based on marine and plant extract as well as various vegetable oils. They fit to the natural ideology and give added value to formulations with stability and skin conditioning benefits. Creanatural Phyto products are derived from plants and vegetable oils. They give a natural touch for all types of skin care, sun care and colour care applications.

FIFLOW are fully fluorinated perfluorocarbons that have the ability to transport gases, especially air, but also oxygen, nitrogen and carbon dioxide. They are non-oil or water-soluble carriers, which is why they form a third phase in emulsions. Stable, heavy liquids that have no flash point.

For anti-cellulite products: improves metabolism and renews the connective tissue. Penetrates quickly into the skin without leaving any unpleasant residue.

PRODUCTNAME	INCI	DESCRIPTION
FIFLOW BB 61 / BB 76	<i>PERFLUOROHEXANE (AND) PERFLUORODECALIN (AND) PENTAFLUOROPROPANE</i>	Provides an instant pearling effect in skin care applications. Ideal for bathing and cleansing products or masks and serum applications, if the visual formation of foam is desired.
FIFLOW BTX	<i>PERFLUOROHEXANE (AND) PERFLUOROPERHYDROPHENANTHRENE (AND) PERFLUORODECALIN (AND) PERFLUORODIMETHYLCYCLOHEXANE</i>	Ideal ingredient for anti-wrinkle products as it has an instant skin-filling and muscle-relaxing effect. Also has long-term effects due to its ability to supply oxygen to the skin. Has a molecular weight that has improved penetration for anti-wrinkle products.
FIFLOW SC	<i>PERFLUOROHEXANE (AND) PERFLUORODECALIN (AND) PERFLUOROPERHYDROPHENANTHRENE (AND) PERFLUORODIMETHYLCYCLOHEXANE</i>	Designed for skin rejuvenation and regenerating products as it improves skin renewal and skin elasticity. Due to its molecular weight, FIFLOW SC can gradually transport oxygen into the skin over a longer period of time.
FIFLOW VF	<i>PERFLUOROHEXANE (AND) PERFLUORODECALIN (AND) PERFLUOROPERHYDROPHENANTHRENE (AND) PERFLUORODIMETHYLCYCLOHEXANE</i>	Instant pore refiner especially designed for this application. The hexagonal molecular structure immediately increases skin volume by 30%.
LACTONE MSO	<i>MEADOWFOAM DELTA-LACTONE</i>	White wax with two melting points (20-40 °C). Depending on the pH, the product is water-soluble or oil-soluble. It moisturizes through its strong-rich texture. The product has a calming effect on reddened and irritated skin through its reduction of microcirculation.
NORDIC BEAUTY BILBERRY DISPERSION	<i>WATER (AND) VACCINIUM MYRTILLUS (AND) MALTODEXTRIN (AND) SODIUM BENZOATE (AND) POTASSIUM SORBATE</i>	Wild Berries are a good source of vitamin E. Vitamin A in Berries occurs in its precursor form, carotenoids. Aside from vitamins, Berries also contain minerals and trace elements in amounts comparable to fruits and vegetables. These include potassium, calcium, iron, magnesium, zinc, selenium, and manganese. Besides vitamins and minerals, Berries contain polyphenols.
NORDIC BEAUTY BILBERRY ORG	<i>WATER (AND) VACCINIUM MYRTILLUS (AND) SODIUM BENZOATE (AND) POTASSIUM SORBATE</i>	
NORDIC BEAUTY BILBERRY SCRUB	<i>VACCINIUM MYRTILLUS</i>	
NORDIC BEAUTY BIRCH SAP	<i>BETULA ALBA JUICE (AND) PHENOXYETHANOL (AND) CHLORPHENESIN</i>	Nordic Beauty Birch Sap is a pure raw material from Nordic nature, genuine birch sap. Birch Sap can be collected once a year, in spring time, and one tree can give up to 50 liters

PRODUCTNAME	INCI	DESCRIPTION
<b>NORDIC BEAUTY BIRCH SAP GEL</b>	<i>BETULA ALBA JUICE (AND) HYDROXYETHYLCELLULOSE (AND) SODIUM BENZOATE (AND) POTASSIUM SORBATE</i>	of sap. Birch Sap is a bioactive fluid which contains vitamins and other biologically active substances. They are three sugars, fructose, glucose and sucrose, potassium, calcium, phosphorus, magnesium, manganese, zinc, sodium, iron, fruit acids and vitamin C. Also free amino acids, enzymes and essential oils can be found in birch sap.
<b>NORDIC BEAUTY LINGONBERRY DISPERSION</b>	<i>WATER (AND) VACCINIUM VITIS-IDAEA (AND) MALTODEXTRIN (AND) SODIUM BENZOATE (AND) POTASSIUM SORBATE</i>	Wild Berries are a good source of vitamin E. Vitamin A in Berries occurs in its precursor form, carotenoids. Aside from vitamins, Berries also contain minerals and trace elements in amounts comparable to fruits and vegetables. These include potassium, calcium, iron, magnesium, zinc, selenium, and manganese. Besides vitamins and minerals, Berries contain polyphenols. Lingonberry ( <i>Vaccinium vitis-idaea</i> ) is a low-growing (5-30 cm) perennial evergreen shrub native to northern parts of the world. Lingonberry produces a small (5-9 mm in diameter) fruit with bright red colour with large harvest size compared to many other berries. Lingonberry contains multiple bioactive flavonoid compounds (flavonols, proanthocyanidins, lignans, stillbenoids, etc.) The amount of resveratrol in lingonberries is similar to that found in the key ingredient of red wine, dark grapes.
<b>NORDIC BEAUTY LINGONBERRY ORG</b>	<i>WATER (AND) VACCINIUM VITIS-IDAEA (AND) SODIUM BENZOATE (AND) POTASSIUM SORBATE</i>	
<b>NORDIC BEAUTY LINGONBERRY SCRUB ISO 16128</b>	<i>VACCINIUM VITISIDAEA</i>	
<b>NORDIC BEAUTY SEA BUCKTHORN EXTRACT</b>	<i>BETULA ALBA JUICE (AND) HIPPOPHAE RHAMNOIDES FRUIT EXTRACT (AND) PHENOXYETHANOL (AND) CHLORPHENESIN</i>	Wild sea buckthorn, which has a high amount of polyphenols and organic acids.
<b>OLIGOLIDES® COPPER / MANGANESE / ZINC / TRIO</b>	<i>WATER (AND) SACCHAROMYCES/METAL FERMENT</i>	Biotransformed trace elements: made from the baker's yeast <i>Saccharomyces Cerevisiae</i> and metallic copper, zinc and manganese. Can link with biopeptides to be recognisable to skin cells. Zinc promotes cell metabolism, manganese cell energy, copper/zinc together autophagy of cells, manganese/zinc together skin renewal. Zinc nourishes and promotes hair growth. <i>Saccharomyces cerevisiae</i> is a source of B vitamins.
<b>SKINWELL HA PLUS</b>	<i>HYDROXYPROPYLTRIMONIUM HYALUROANTE</i>	In addition to the typical properties of hyaluronic acid such as moisture retention and viscoelasticity, this hyaluronic acid derivative with a cationic charge offers good adsorption and a special affinity; it cannot be washed off with water. This makes SKINWELL HA PLUS suitable for both skin care and hair care.

PRODUCTNAME	INCI	DESCRIPTION
POLYPON HSG	<i>HYDROLYZED SCLEROTIUM GUM</i>	Natural fermentation-derived thickener based on a natural polysaccharide (Sclerotium rolfii). It also offers skin moisturization, skin protection and supports wound healing. The product is non-ionic and therefore compatible with charged ingredients. Can be used in the pH range 4-9.
SKINWELL GR	<i>GLUCOSYL RUTIN</i>	SKINWELL GR is a very water-soluble, stable and odorless bioflavonoid, which is produced by a specific enzyme technology. SKINWELL GR can be used in a variety of cosmetic and personal care products.
SKINWELL HPR	<i>HYDROXYPINACOLONE RETINOATE</i>	Innovative, stable anti-ageing product comparable to retinoic acid. Better than retinol in terms of effect. No known harmful side effects (low irritation potential). POLYPON DMI is recommended as solubiliser. Area of application: ANTI-AGING, SKIN CARE.
SKINWELL SAP50	<i>SODIUM ASCORBYL PHOSPHATE</i>	SKINWELL SAP50 is a stable vitamin C derivative. It releases vitamin C on the skin and protects the corneocytes. It promotes collagen formation and can contribute to the care of UV-stressed skin, as well as supportive care of actinic keratosis and lighten dark skin.
OLIGOLIDES® COPPER / MANGANESE / ZINC / TRIO	<i>WATER (AND) SACCHAROMYCES/METAL FERMENT</i>	Biotransformed trace elements: made from the baker's yeast Saccharomyces Cerevisiae and metallic copper, zinc and manganese. Can link with biopeptides to be recognisable to skin cells. Zinc promotes cell metabolism, manganese cell energy, copper/zinc together autophagy of cells, manganese/zinc together skin renewal. Zinc nourishes and promotes hair growth. Saccharomyces cerevisiae is a source of B vitamins.
HAIRWELL HA PLUS	<i>HYDROXYPROPYLTRIMONIUM HYALUROANTE</i>	In addition to the typical properties of hyaluronic acid such as moisture retention and viscoelasticity, this hyaluronic acid derivative with a cationic charge offers good adsorption and a special affinity; it cannot be washed off with water. This makes HAIRWELL HA PLUS suitable for both skin care and hair care.

## Antimicrobial

<b>BIODOR LOD SPEZIAL</b>	<i>PARFUM</i>	Alternative preservative for leave-on, but also for rinse-off products using aromatic alcohols, challenge test to prove effectiveness. Application: PRESERVATION ALTERNATIVE.
<b>BIODOR U SPEZIAL</b>		
<b>POLYSOL AC</b>	<i>PHENOXYETHANOL, DEHYDROACETIC ACID, BENZOIC ACID, LACTIC ACID, SORBIC ACID</i>	Conventional preservation for leave-on products using a mixture of aromatic alcohols and carboxylic acids with a broad spectrum of activity, challenge test to prove effectiveness. Application: PRESERVATION CONVENTIONAL.
