

# Waxes

PRODUCTNAME	IONIC	APPEARANCE	PH (CA. UNDILUTED)	SOLIDS CONTENT (CA.)	ABSORBANCE AT 650NM
-------------	-------	------------	--------------------	----------------------	---------------------

## Polyethylene copolymer

WACHS 52	Non-ionic	Homogenous translucent emulsion	10,5	25%	1.7
----------	-----------	---------------------------------	------	-----	-----

## Oxidised polyethylene homopolymer

WACHS 37	Non-ionic	Off-white emulsion	9,2	35%	1.8
----------	-----------	--------------------	-----	-----	-----

WACHS A37D	anionic	Homogenous translucent emulsion	10	25%	1.8
WACHS C37	Cationic		4	27%	---

WACHS 60/40	Non-ionic	off-white emulsion	8	39%	1.8
-------------	-----------	--------------------	---	-----	-----

## Polypropylene copolymer with maleic acid

WACHS 57P	Non-ionic	Yellowish homogenous translucent emulsion	8,5	39%	1.8
-----------	-----------	---	-----	-----	-----

## Montan ester

WACHS 20	Non-ionic	Off-white emulsion	4,5	19%	1.7 maximum
----------	-----------	--------------------	-----	-----	-------------
